In 2016 I started leading discussions on race and social justice called Race: Rage & Fear to host difficult and brave conversations on racism and racial violence through education and direct action activities.

In 2020, this work shifted online due to the Coronavirus pandemic. I recently started a Patreon site to raise funds to increase the impact of this work. The money given by the current patrons paid for the development and publication of this document! A PDF of these coloring pages is available for free online at [Patreon.com/RaceRageFear](https://Patreon.com/RaceRageFear) and 500 Printed copies are available for free as well.

Thank you for your help in creating quality anti-racist content.
